- [How to Create a Trimble ID](#) video
- [My Transportation Customer Training](#) course

Navigate to My Transportation

1. Go to My Transportation Community Login URL
<https://mytransportation.trimble.com/service>
2. This URL will redirect to the **Trimble ID Sign In** page.

Login Process for Existing My Transportation Users with An Existing Trimble ID

1. Enter the email address associated with your Trimble ID (TID)
2. Click **Next**
3. Enter your password
4. Click **Sign In**

The **My Transportation** homepage loads.

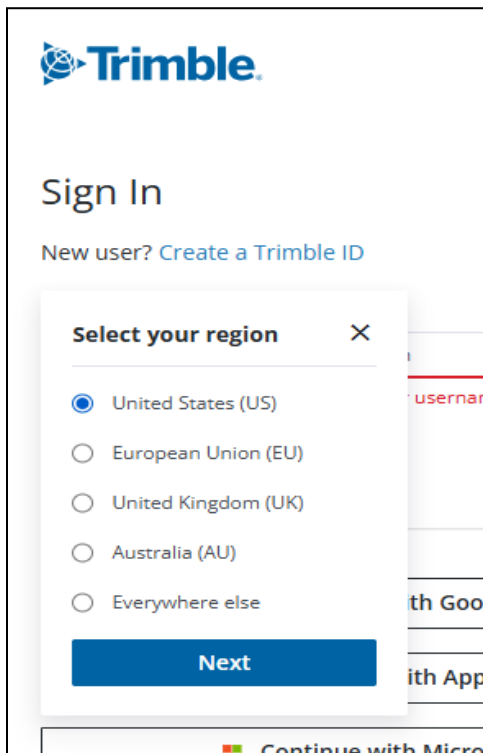

Login Process for Existing My Transportation Users without a Trimble ID

1. Click **Create a Trimble ID**. A drop-down menu appears.

The image shows the Trimble Sign In page. At the top is the Trimble logo. Below it is the text 'Sign In'. Under 'Sign In' is the text 'New user?' followed by a link 'Create a Trimble ID' which is highlighted with a red rectangle. Below this is a text input field labeled 'Email or username'. At the bottom left is a link 'Use a passkey' with a person icon, and at the bottom right is a blue button labeled 'Next'.

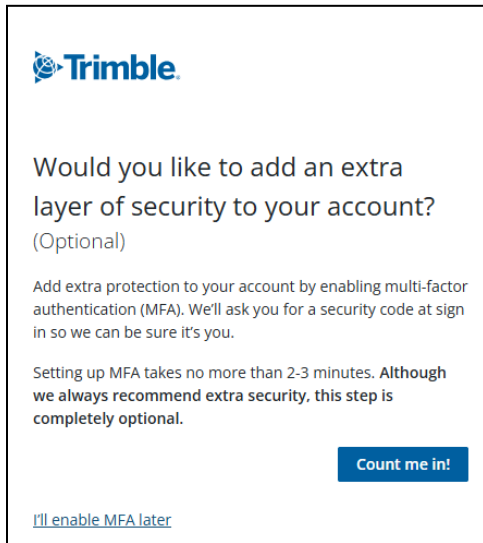

2. Select your region

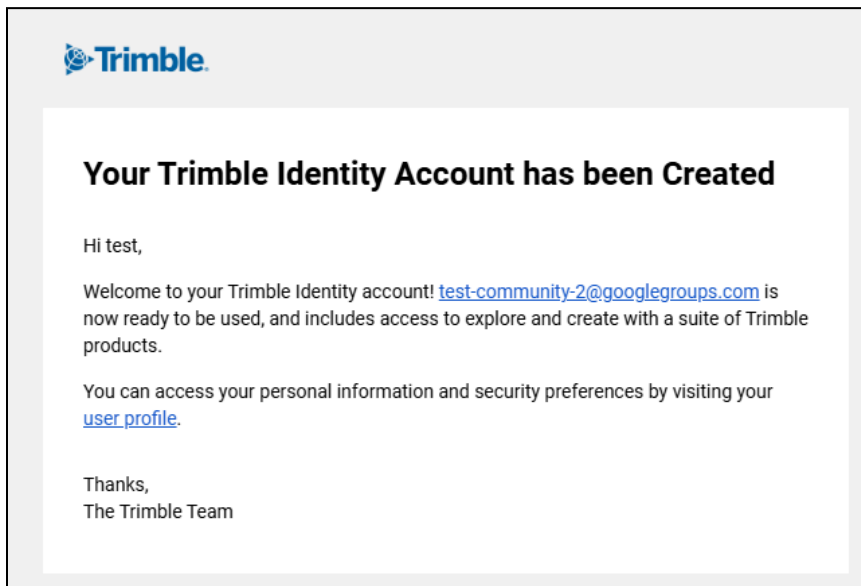

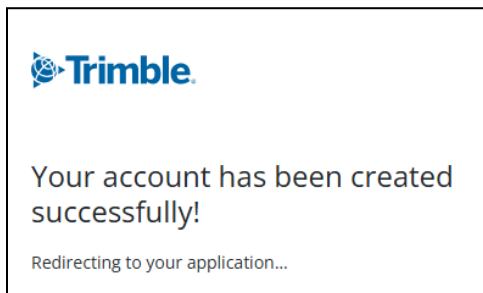

The image shows the Trimble Sign In page with a modal open. The modal is titled 'Select your region' and has a close button (X) in the top right corner. Inside the modal are five radio button options: 'United States (US)', 'European Union (EU)', 'United Kingdom (UK)', 'Australia (AU)', and 'Everywhere else'. The 'United States (US)' option is selected. At the bottom of the modal is a blue button labeled 'Next'. The background shows the same Sign In page as in the previous image, but the 'Create a Trimble ID' link is now blue and not highlighted.

3. Click **Next**
4. In the corresponding fields, enter your **First Name**, **Last Name**, and the **email address**
IMPORTANT: The email address must **match exactly** to the email you currently use to log into **My Transportation**
5. Click **Next**. A verification code is sent to your email address.
6. Enter the six-digit verification code in the **Verification Code** field and click **Submit**.
7. Enter a new password in the **New Password** and **Confirm Password** fields.
8. Click **Submit**.
The Account Preferences page loads.

9. Select your preferences. Country, time zone, and language are required. Then click **Next**.
You may also enable multi-factor authentication, but it is not required. Select **I'll enable MFA later** if you do not want to enable MFA.

10. If you enabled multi-factor authentication, you must confirm a second-factor authentication type.
11. The user will receive the following message if their account was successfully created:

Welcome to My Transportation Inbox x

✚ Summarize this email
